

Business Transitions

You're ready to let your business go. You've taken it as far as you can and you're ready for a change. During a business transition, most business owners get overwhelmed with the amount of paperwork involved. Let us make the transition easier. We can do as little as providing you with checklists to ensure you haven't missed something, to managing the full process of working with your accountant, lawyer, brokers and, when applicable, purchasers of your business. With our full selection of contract templates, we can save you time and money in preparing contracts for your lawyers' review.

Our Business Transition services include:

- Providing you with a checklist of things to do during the transition process
- Critical path steps that must be completed in a specific order and time frame
- Assistance in reviewing your contracts, and initial preparation of your contracts for your lawyers' review
- Coordination of the transition process including working with your employees to reassure them regarding the changes to come
- Documentation of your business processes for any potential buyers to use after the transition
- Assistance in finding financing and legal advice.

With our Business Transition services, we can assist you in minimizing the stress related to your transition and help you to relax more than you otherwise would.
